

DETAILED PAINT SPECIFICATION

Detailed Paint Specification

This specification has been prepared following inspection of the project and outlines the recommended preparation procedures, coating systems and estimated material requirements for the surfaces included within this quotation. All recommendations are based on the recorded site conditions at the time of inspection.

Purpose

The purpose of this specification is to provide a structured coating recommendation for each inspected surface included within this quotation. The document should be used together with the official quotation and manufacturer product data sheets.

General Application Notes

- Ensure all surfaces are clean, dry and free from contaminants before coating.
- Moisture levels should fall within manufacturer recommendations before application.
- All preparation work should be completed before primers or finish coats are applied.
- Observe all manufacturer drying and recoat times. Application should only be carried out under suitable environmental conditions.

ITEM 1 : Interior Walls

INTERIOR · INTERIOR_WALLS

Preparation Requirements

Clean

Surface Rules / Description

Brick

Coating System

Coating System	Technical Data Sheet	Spread Rate	DFT (µm)	Application Methods
TEST Interior Smooth Sheen	TEST-TDS-002	10.01		Brush,Roller

Surface / Product

Item No.	Surface	Surface Type	Product	Surface Area (m²)	Coverage (m²/L)	Amount Required (L/kg)	Pack Size	Units of Paint	Unit Price (excl. VAT)	Total Price (excl. VAT)	Paint Cost per m² (excl. VAT)
1	Interior Walls	Brick	TEST Interior Smooth Sheen	10.00		1.00	1	1	R 100.00 / 1.00	R 100.00	R 10.00

2

ITEM 2 : Exterior Walls

EXTERIOR · EXTERIOR_WALLS

3

ITEM 3 :
Ceilings

INTERIOR · CEILINGS

Preparation Requirements

Inspect existing coating. Allow surfaces to dry; re-check moisture before painting.

Coating System

Coating System	Technical Data Sheet	Spread Rate	DFT (µm)	Application Methods
TEST Interior Smooth Matte	TEST-TDS-001	10.00		Brush,Roller

Surface / Product

Item No.	Surface	Surface Type	Product	Surface Area (m²)	Coverage (m²/L)	Amount Required (L/kg)	Pack Size	Units of Paint	Unit Price (excl. VAT)	Total Price (excl. VAT)	Paint Cost per m² (excl. VAT)
1	Ceilings	Interior	TEST Interior Smooth Matte	21.00		2.10	3	3	R 300.00 / 2.10	R 300.00	R 14.29

4

ITEM 4 : Exterior Doors, Trims & Skirtings

EXTERIOR · EXTERIOR_DOORS_TRIMS_SKIRTINGS

5

ITEM 5 : Floors

INTERIOR · FLOORS

ITEM 6 : Roof

EXTERIOR · ROOF

7

ITEM 7 : Soffits / Fascia

EXTERIOR · SOFFITS_FASCIA

8

ITEM 8 : Doors, Trims & Skirtings

INTERIOR · DOORS_TRIMS_SKIRTINGS

9

ITEM 9 : Window Frames

INTERIOR · WINDOW_FRAMES

10

ITEM 10 : Gutter

EXTERIOR · GUTTER

11

ITEM 11 : Deck / Patio

EXTERIOR · DECK_PATIO

12

ITEM 12 : Fencing

EXTERIOR · FENCING

13

ITEM 13 : Garage Door

EXTERIOR · GARAGE_DOOR

14

ITEM 14 : Pavings

EXTERIOR · PAVINGS

15

ITEM 15 : Exterior Window Frames

EXTERIOR · EXTERIOR_WINDOW_FRAMES

Project Pricing Summary

Subtotal (excl. VAT)	R 2800.00
VAT	R 420.00
Grand Total	R 3220.00

Important Notes

Material quantities are estimates based on the recorded surface areas and selected coating systems. Actual consumption may vary depending on substrate porosity, application method and site conditions.

This specification should be read together with the official quotation and any manufacturer technical data sheets supplied with the selected coating products.
